Q7. Write HTML code to print a paragraph that is description of a book. It shall include title of the book, author name, name and title should be underlined and all adjectives should be bold and italiics

```
<html> <head> <title> <u>Shadow Slave</u> </title> </head>
```

```
<h1><u>Shadow Slave</u> <sub>-Guilty3</sub> </h1>
```

```
<body> <p>
```

"Shadow Slave" is a gripping web novel that delves into the life of a young man who finds himself bound to a mysterious shadowy entity after a near-fatal accident. As he navigates this newfound connection, he discovers hidden powers and uncovers dark secrets about the world around him. The story masterfully blends elements of fantasy, action, and psychological intrigue, drawing readers into a world where shadows hold both peril and promise. With its intricate plot and deep character development, "Shadow Slave" keeps readers on the edge of their seats, eager to unravel the next twist in the protagonist's journey. </p>
